

```
package week05Assignment;

public class Application {
    public static void main (String[] args) {

        Logger logger = new AsteriskLogger();

        logger.log("Hello");
        logger.error("Bye");

        Logger logger2 = new SpacedLogger();

        logger2.log("Hello");
        logger2.error("Bye");

    }

}
```
